

COVID-19 Telehealth Resources

Information provided by Catholic Charities USA-January 2021

Below you will find helpful resources, provided by our Integrated Health team, to prepare you for a post-COVID world of telehealth:

- [State specific telehealth guidelines](#) – resource breaks down guidelines by state
- [Center for health connected policy](#) - resource center has regional support
- <https://www.telehealthresourcecenter.org/> - telehealth Covid-19 material, access to webinars and consultation
- <https://telehealth.hhs.gov>

Each state and private insurance provider has additional regulations; however, the health connect and telehealth resource center break things down by state and region. Plus, you can ask specific questions.

Some of the procedures and services under the emergency waiver will go away once the pandemic is over. Our CCUSA Social Policy team continues its advocacy for long-term change with telehealth. As we receive more information we will keep you updated.

For more information, contact [Ben Wortham](#) (703-850-8671) our VP of Behavioral Health Integration.
